ROMA COMMUNITY

The Roma Community in Prilep is concentrated in the settlement Trizla 2. The settlement is located in the northeastern peripheral part of the city of Prilep.

The settlement Trizla 2 is divided into 4 neighborhoods as follows:

DABNICA - ul. Dabnichka, ul. Tri bagremi and ul. Erdovan Shabanoski with about **300 households**

DEBOJ - ul. Bogomilska, ul. Stibera/Mavrovska and ul. Moravska with about **200 households**

MEKSIKO - ul. Berovska, ul. Gostivarska, ul. Shtipska/Babuna, ul. Debarca, ul. Markovi Kuli and ul. Tole Pasha/Vranjska with about **400 households** and

NOVO SELO - ul. Dabnichki zavoј, ul. Korab, ul. Veleshka, ul. Sremska, ul. Dojranska/Dunavska and ul. Bogomila with about **250 households**.

BACKGROUND: citizens living in the settlement Trizla 2 face various problems: unemployment, poverty, lack of clean drinking water, lack of clean drinking water, lack of access to sewerage network, lack of electricity, limited access to health and social services etc. The Detailed Urban Plan doesn't cover two neighborhoods: „Tri Bagremi“ and „Debarca“, thus **500 households or about 800 inhabitants** do not have access to adequate communal and infrastructural arrangement.

PROBLEM: At 4 locations (Tri Bagremi, Debarca, Pokraj Kasarni and m.v. Kaj Krstot) have been created illegal landfills that do not even meet the basic environmental standards and are determined to the health of citizens and the overall environment.

PROPOSED SOLUTION: COVERAGE OF THE TWO NEIGHBORHOODS, „TRI BAGREMI“ AND „DEBARCA“ WITH DUP AND PROVISION OF A REGULAR LANDFILL ACCORDING TO STANDARDS THAT MEET THE CRITERIA FOR ENVIRONMENTAL PROTECTION.
